
50 mm. Measure it: if it is not 50 mm, print again at 100% (Actual size).

How to read it: the bold name next to a control is what it does from the home screen. Its other jobs sit beyond it in lighter type, each led by how to reach it: HOLD, LONG, 2× = hold it, press it long, press it twice. FX+ = hold FX, then use this control. WITH OCT+ = press it together with OCT+. AGAIN = press it again on the home screen. ELSE = on every other screen. A name and a colon (ENV:) = on that page. Key names run along the keys: the upper row above the keybed, the lower row along the front edge.

SLOOP DX7 Banks v2.5-b28-test

Mapped from SLOOP DX7 Banks v2.5-b28-test (c741193), 2026-10-17. The names for each job are Les's own short wording, from Les's control map of this firmware.
Every control's main job is here, and 14 more; 19 more did not fit and are left off (Les knows them all). Cut on the solid lines. The dashed line is the case edge, 161.5 x 96.5 mm.
